

Is Albania a good place for solar energy?

Albania gets about 2100-2700 hours of sunshine in a year so it has a great potential for solar energy. Solar energy is easily accessible since most energy comes directly or indirectly from the sun. It could be used for heating and lighting homes, commercial, and industrial buildings.

What is the largest solar power plant in Albania?

In late 2023 the 140MW Karavasta solar power plant was completed, having taken 15 months to build, it is the largest in Albania to date. A 100 MW solar power project called Spitalla in Durrës area is planned to be built next. Albania has enormous potential for electric energy from wind power.

What types of solar solutions are available?

On-grid solar solutions for residential, commercial, and utility scale projects. Residential and commercial hybrid solar solutions including battery storage solutions. If you have any questions or need help, feel free to contact with our team, or you can call us any time

What services does Vega Solar offer?

Vega Solar offers free consulting by preparing a project that suits your specific needs. Installation and configuration by qualified staff and German engineer. Periodic cleaning and inspection of your photovoltaic system with professional equipment. warranty. Invert On Grid by German and Austrian firms leader in the world market.

A home solar system can be broken into a handful of major components. Solar panels; Inverters and monitoring software; Balance of system; Battery storage; Solar panels for home. The star of the show is the solar panels themselves, and there are several things to consider when choosing the right solar panel. Monocrystalline (black) vs ...
