

Should the Faroe Islands be self-sufficient?

Isolated in the North Atlantic Ocean, the Faroe Islands need to be self-sufficient in terms of electricity generation as the Faroese electrical grid is not interconnected to neighbouring countries. SEV operates six hydro power plants, three thermal power plants, three wind farms and one solar power plant.

Why is SEV the main power supplier in the Faroe Islands?

SEV is the main power supplier in the Faroe Islands. We operate on 17 of the 18 islands that constitute the Faroe Islands. Isolated in the North Atlantic Ocean, the Faroe Islands need to be self-sufficient in terms of electricity generation as the Faroese electrical grid is not interconnected to neighbouring countries.

How many wind farms are there in the Faroe Islands?

Furthermore, external suppliers operate one wind farm and one biomass plant. Total installed capacity in the Faroe Islands is 163 MW and total power generation in 2019 was 386 GWh. Max demand was 63.1 MW in November 2020. In 2018, 49% of power generation came from renewable sources, i.e. hydro and wind power, respectively.

Are there renewables in the Faroe Islands?

"In the Faroe Islands, we are blessed with renewables: we have wind, hydro and some sun in the summer; we also have tidal and wave power where we can see great potential," says Nielsen. Since announcing its green vision in 2014, SEV has already done a lot to increase the share of renewables in its energy mix.

Where are the Faroe Islands located?

Far from continental Europe and surrounded by a vast sea, the Faroe Islands lie in the middle of the North Atlantic between Iceland and Norway.

Will the Faroe Islands use more green energy in 2025?

Even more conservative scenarios predict that the Faroe Islands' current electricity consumption of approximately 350,000 MWh per year will increase to approximately 450,000 MWh in 2025. "The current discussion recommends using more green energy and especially the potential for wind energy is quite high," says one of the islanders.

The islands promise endless inspiration, whether it's the thrill of a winter storm, the serenity of summer light, or the charm of traditional customs. Dive into this guide to explore seasonal highlights, timeless traditions, and all the unforgettable things to see and do in the Faroe Islands.

Randi's love of the Faroe Islands comes through every word of her knowledge of the history, the environment, and the sagas of how the Faroese lived and live. It was delightful to meet local farmers, residents who make cheese, candy, and live in a beautiful place with harsh conditions. The drive and the walks were stunning.

In November, the Faroe Islands settle into a cooler, windier rhythm. Temperatures range between 3°C and 8°C (37°F to 46°F). More frequent scattered showers or misty drizzle often roll in from the sea, giving the islands a dramatic, mist-covered look.
