

Are solar panels coming to North Korea?

Sprouting from rooftops and hanging from balconies, solar panels are no longer an unusual sight on homes across North Korea. In other parts of the world, the emergence of household solar panels has been part of a push for green energy solutions, but this is not the case in North Korea.

Is North Korea the solution to South Korea's problems?

For Park Chung-hee, North Korea was South Korea's main challenge, held up to justify grave violations of South Koreans' human rights. For Moon Jae-in, North Korea is the solution to a wide range of problems. Neither approach was or is fully logical, but both make political sense--at least in the short term.

Does North Korea have energy security challenges?

Access to solar panels has created capacity where the state falls short, but the overall energy security challenges facing the nation are daunting. This report, "North Korea's Energy Sector," is a compilation of articles published on 38 North in 2023 that surveyed North Korea's energy production facilities and infrastructure.

Is North Korea the solution for Moon Jae-in?

For Moon Jae-in, North Korea is the solution to a wide range of problems. Neither approach was or is fully logical, but both make political sense--at least in the short term. Benjamin Katzeff Silberstein is an Associate Scholar at the Foreign Policy Research Institute, focusing primarily on the Korean Peninsula and East Asian region.

Will South Korea keep pushing economic cooperation projects with North Korea?

In other words, South Korea will likely keep pushing economic cooperation projects with North Korea, despite the meager financial gains produced in the past, and despite the strain it puts on the alliance with the U.S. All politics is local, both in North and South Korea.
