Spark off grid solar system Spark off grid solar system ... This off-grid solar system is one of the best choice to go for 24\* 7 power in your home, office. Main products Solar ...

- The payback period for solar connection for home is 3-4 years after you've installed an on-grid solar system. After this period, all you'll reap from your solar system will be pure gains. As the electricity tariff increases annually, even if the solar system degrades by 0.5% to 0.7% per year, the returns will still be considerable.

Spark Solar Solutions introduces the best 45kW on-grid solar power system for homes. A 45kW solar system generates approx.8100 units every day from morning 8 am to 6 pm which is sufficient to run multiple air conditioners along with refrigerators, televisions, fans, and lights during the day in a big house.
