

Why did Czar Peter enlist in Poland?

Czar Peter's troops were in Poland, which meant the defense would begin well forward of the actual Russian border. More importantly, the geography favored the Russians. There were vast tracts of dense forests, and roads were few and primitive at best.

Was Czar Peter still active?

The Swedish king eventually deposed Augustus and placed an ally, Stanislaus Lecycznski, on the Polish throne. At that point, Czar Peter remained the only enemy still active in the field. While Charles campaigned in Poland, Peter was far from inactive.

How did Czar Peter control the Russian army?

Czar Peter commanded the right, with two Guard regiments and one battalion of infantry. He also controlled the Russian reserve cavalry. The battle commenced at 1 pm. From the beginning it was clear that there would be few displays of tactical brilliance on the field.

How did Czar Peter prop up the Russian line?

But Czar Peter propped up the Russian line by sending in the Semenovsky Guard Regiment to put an end to the crisis. And so the battle seesawed back and forth, with no clearcut winner.

Who defeated the Swedish army in WW1?

The Russian army under the command of Tsar Peter I defeated the Swedish army under the command of Carl Gustaf Rehnskiöld. The battle put an end to the status of the Swedish Empire as a European great power, as well as its eastbound expansion, and marked the beginning of Russian supremacy in eastern Europe.
