

The BrightNight Box Canyon Solar Project, is a 300-megawatt solar power solution located in Pinal County, Arizona. Power produced by the Box Canyon project will serve the Southwest Public Power Agency (SPPA). SPPA provides power to 25 different smaller electric Co-Ops and utilities throughout the state of Arizona.

While India has seen an impressive investment in standard renewable energy infrastructure, BrightNight will provide power off-takers with next generation hybrid, peak and firm power solutions that will outpace standard project dispatchability, reliability, and safety. BrightNight solutions will be critical for the country's continued journey ...

Ron oversees development, strategy and business origination at BrightNight. During his 28-year energy career, he has participated in more than \$3.6 billion of completed power generation projects. Prior to joining BrightNight, Ron was ...

While India has seen an impressive investment in standard renewable energy infrastructure, BrightNight will provide power off-takers with next generation hybrid, peak and firm power solutions that will outpace ...

The BrightNight Frontier project will feature 120-megawatts (MW) of solar generation and an optional 60MW / 240MWh battery energy storage system (BESS). The project straddles Washington and Marion Counties in Kentucky, ...

Power when you need it Who Is BrightNight? o BrightNight is a U.S. based, renewable power company working to provide clean power projects for a decarbonized energy future. o Our experts have a long professional history with more than 10,000 megawatts of projects installed and operated successfully. o As an independent power producer, we ...

The BrightNight Starfire Renewable Power project is an industry-leading opportunity to procure clean renewable power. This project will meet the region's energy needs and provide dispatchable renewable power through energy ...

BrightNight develops renewable power solutions rooted in your needs and our industry-leading approach. Development; Dispatchable Solutions. Reliable, cost effective, 24 x 7 renewable power is possible with a BrightNight solution. Dispatchable Solutions; Maintenance.

BrightNight, the next-generation renewable power producer built to deliver clean and dispatchable power solutions, today announced the successful closing of a \$440 million strategic equity ...

The BrightNight Frontier project will feature 120-megawatts (MW) of solar generation and an optional 60MW

/ 240MWh battery energy storage system (BESS). The project straddles Washington and Marion Counties in Kentucky, and construction is expected to be completed in 2026. ... Renewable power projects aren't just good for the environment, they ...

BrightNight, the next generation and global renewable power producer built to deliver clean and dispatchable solutions, today announced the successful closing of a \$375 million corporate credit ...

BrightNight's clear vision and industry-wide demand has driven our growth. Over the last four years, BrightNight has built a global team and a 16-gigawatt pipeline of leading-edge renewable power projects. We're bringing the best of our global perspective to every BrightNight customer. Our regional teams are developing renewable power projects

BrightNight, a leading renewable power company designed to provide utility and commercial and industrial customers with clean, dispatchable renewable power solutions, and Cordelio Power announced today the development of the Greenwater Battery Energy Storage System (BESS), a 200-megawatt (MW)/800-megawatt hour (MWh) standalone project set to ...

BrightNight, the next-generation global renewable power IPP built to deliver clean and dispatchable solutions, today announced the addition of two senior leaders to support the buildout of its ~37 GW global portfolio in the areas of Asset Management, Operations & Maintenance and Construction: Jeff Gibbons joins as Senior Vice President of Asset ...

November 8, 2023, West Palm Beach, U.S. - BrightNight, the next generation and global renewable power producer built to deliver clean and dispatchable solutions, today announced the evolution and expansion of its JV partnership with Cordelio Power to help accelerate and meet the growing demand for renewable power in the Western U.S.

The BrightNight Greenwater Storage Project will feature a 200-megawatt (MW) / 800 MWh Battery Energy Storage System (BESS), situated in Pierce County, Washington. This innovative solution will be capable of discharging a firm capacity of 200MW for a continuous period of 4 hours while providing critical and responsive load-balancing capabilities ...
