TERRA POWER SOLUTIONS, INC. is a California Stock Corporation - Ca - General filed on June 25, 2009. The company's filing status is listed as Active and its File Number is 3215841. The Registered Agent on file for this company is Nenad Kostic and is located at 6082 Via Regla, San Diego, CA 92122. The company's principal address is 6082 Via ...

Terra Power's directors Jeffrey and Yuyun share a passion for a more equitable and sustainable planet. They met at Oxford University in 2010 while studying the MSc Environmental Change & Management and established Terra Power in 2017 to pursue integrated solutions that produce renewable energy and remediate contaminated sites. At Terra Power ...

The Sodium technology will use the high-temperature heat from the reactor to power a molten salt storage system that can retain tremendous amounts of energy, much greater than the energy stored in typical battery facilities. That energy can be used to power the grid at peak demand when weather and darkness hamper renewable output.
