So, what happens when we plant Giant bamboo in the Netherlands? We learn about a plant that thrives in most parts of the world, and has proven to do so also in Europe. Adequate funding can help us to continue our research to find species of bamboo that can be used for many purposes, not just materials, but also as a way to cleanup our climate. ...

By expanding their presence in the Netherlands, African Bamboo aims at creating an innovation cluster for natural fibers in the heart of Europe. The company plans to establish high-tech laboratories and piloting facilities at a Center of Bamboo Research & Application (COBRA) and boost commercialization of products and applications.
