

What is a livoltek all-in-one set?

You have got: Read more The Livoltek All-In-One set combines a 1-phase hybrid inverter (5 kW) and solar battery (5 kWh). You can use this complete set directly for energy storage at home as a home battery, battery for the solar panels or solar panels battery.

What is livoltek IPOWER HES?

The LIVOLTEK iPower HES Series is a premium all-in-one solar and storage solution that integrates a hybrid inverter with low-voltage batteries. This integration helps you reduce electricity bills and maximize energy independence from the grid.

How can I use my livoltek battery?

In addition to storing solar energy, the battery can also be used to respond to the changing electricity prices. This can be done by scheduling storage sessions via the accompanying ' My Livoltek ' app. This way you are able to store energy at 'cheap moments' and use it again at later times.

Where should a livoltek solar battery be installed?

To maximize the lifetime of your Livoltek solar battery, it is crucial to install it in the right location. Be sure to place the solar battery in a cool, dry room with plenty of available space. Ideal locations are e.g. the basement or garage.
