

EDF Renewables UK has today (20 August) announced that it will bring over 300MW of battery energy storage system (BESS) projects online over the next 12 months. Six projects are currently in construction and ...

Cruachan Dam, Scotland, where Drax has a 440MW pumped hydro energy storage (PHES) facility. Image: Drax. A cap and floor regime would be the most beneficial solution for supporting long-duration energy storage in the UK, a report from KPMG has found. The professional services firm was commissioned to write the report by power generation group Drax.

The UK's first DC-coupled battery energy storage system is under development in a collaboration between GE Renewable Energy and engineering company Wykes. GE Renewable Energy was chosen by Wykes to deliver the 25MW multiple hour duration energy storage systems, which will be integrated with Wykes' 60MW solar PV plant at the Chelveston ...

Renewable energy developer TagEnergy has energised what it claims is the UK's largest transmission-connected battery energy storage system (BESS): the 100MW/200MWh Lakeside project in North Yorkshire.

DR is a pre-fault service which is designed to correct continuous but small deviations in frequency. The launch of DR follows on from Dynamic Containment going live in October 2020, providing a significant boom to ...

Energy-Storage.news hears from the CEO of American Energy Storage Innovations (AESI), about its BESS technology, battery cell strategy, manufacturing in East Asia and the "shocking" price of manufacturing in the US and buying US-made cells. ... London, UK. Green Hydrogen Summit West Coast 2025. February 26 - February 27, 2025. Seattle, USA ...

AEMO said that new energy storage capacity that has come online will play a key role in grid stability throughout the 2024-25 summer months. ... London, UK. Energy Storage Summit 2025. February 17 - February 19, 2025. London, UK. Green Hydrogen Summit West Coast 2025. February 26 - February 27, 2025. Seattle, USA. Solar Media.

The Poland subsidiary is headed up by executive director Michał Małkowiak, who will be speaking at the Energy Storage Summit CEE, taking place next week on 26-27 September in Warsaw.. Małkowiak told Energy-Storage.news the grid-scale energy storage market in Poland is at an inflection point thanks to the "enormous pace of renewable ...

The UK and Ireland's energy storage pipeline is rapidly growing, with co-located solar PV and storage comprising around 20% of planned capacity, writes Mollie McCorkindale of Solar Media Market Research. "Cannibalisation of revenues" leads National Grid to slash UK energy storage expectations.

Prequalification results for the UK's T-4 and T-1 Capacity Market auctions have been released, with battery storage rising significantly in both. The T-4 auction for delivery year 2025/26 saw 8.3GW of battery storage registered - although after derating this drops to around 2.3GW - according to data released by EnAppSys.

The UK's utility-scale battery energy storage sector is widely considered to be amongst the world's leaders, with a quickly expanding pipeline of assets along with a growing number of potential revenue streams. With renewables producing a record 41% of Britain's energy mix in 2020, the challenge of balancing the grid has become ever more ...

Some long-duration energy storage (LDES) technologies are already cost-competitive with lithium-ion (Li-ion) but will struggle to match the incumbent's cost reduction potential. ... May 8, 2024. Large-scale long ...

At the beginning of this month, sister site Current¹⁷⁷; reported that another optimiser, Arenko, had been awarded contracts to optimise 455MW of battery storage for UK investor-developer Gresham House Energy Storage Fund, expanding an existing multi-year relationship between the pair. These stories originally appeared as separate items on Current¹⁷⁷;

"The commissioning of Tynemouth is an important milestone for Enel since it is the group's first utility-scale, stand-alone battery energy storage system, showing the potential of this promising solution in addressing the challenges of the energy transition," said Enrico Viale, head of Enel's Global Thermal Generation division, which developed the project.

The Winners Are Set to Be Announced for the Energy Storage Awards! Energy Storage Awards, 21 November 2024, Hilton London Bankside. Book Your Table. uk. Premium. ... A 150MW BESS at the flagship Cleve Hill solar and storage project in the UK can now go ahead after its refusal by the local council was successfully appealed.

It currently operates more than 5GW of offshore wind capacity and has an additional 5GW under construction or in development in the UK, including the Hornsea 3 and Hornsea 4 projects. In this year's Contracts for Difference (CfD) auction round, Hornsea 3 re-bid and was awarded a 1,080MW contract. It claims that Hornsea 3, with a 2,400MW ...
