Uruguay's energy grid became powered almost exclusively by domestic renewable sources, and consumer prices, adjusted for inflation, fell. "Electricity bill prices dropped substantially," said Alda Novell, a resident of Montevideo, by telephone. Today, Uruguay has more than 700 wind turbines distributed throughout its territory.

Centrica energy agreed to manage and trade the renewable power generated from two wind farms and one solar PV farm with a combined capacity 198MW in Lithuania for European energy, the firm said. The agreement will start this month and includes the two onshore wind farms, Telsiai I and Telsiai II, and the Anyksiai solar farm.
