

Who is Valiant energy service?

Pride. Progress. Valiant Energy Service specializes in building, servicing, testing and commissioning the systems that power the United States. We get the job done. While our largest customers are Exelon, First Energy and PPL Electric Utilities, our storm crews provide emergency support for disaster recovery efforts throughout the United States.

Why should you choose Valiant energy solutions?

At Valiant Energy Solutions, we understand that operations professionals need to retain their productivity levels while keeping their operating costs low. That's why we offer next-generation solutions for reducing your energy usage-without sacrificing comfort or climate control.

What makes Valiant a great company?

Driven by our proven leadership with long term relationships built on trust across the energy sector landscape, the Valiant Team is focused on developing a deep understanding of our customers' needs and continually improving our delivery model to partner and meet those needs.

What is the Tuvalu solar power project?

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti's peak demand, and 3% of the Tuvalu Electricity Corporation's annual household consumption.

Where does Tuvalu electricity come from?

Tuvalu's power has come from electricity generation facilities that use imported diesel brought in by ships. The Tuvalu Electricity Corporation (TEC) on the main island of Funafuti operates the large power station (2000 kW).

Embrace solar energy and save. It's time to join homeowners who are taking advantage of their access to clean energy through Valiant Energy Solutions. We make going solar stress-free with our full-service solar installation process, so you can enjoy all of the benefits of going off the grid without any hassle.
