

What size boiler does Verdo energy offer?

We have four standard sizes for the waste to energy boiler plant, 4MWt, 6.7MWt, 10MWt and 15MWt. Verdo Energy has many years of experience within biomass conversion, and the company converted its own CHP plant in 2009. At the same time, we supply hot-water boilers in the 1-20MW capacity range for production of heat and steam.

Is Verdo production a/s covered under energy?

o Verdo Produktion A/S became part of the Energi, forsyning og elsalg division in March 2021 and is therefore covered under Energy on page 28.

Will Verdo Energi be a district heating supplier in Herning in 2021?

This dialogue will also be strengthened in Herning in 2021, where Verdo plays an important role as a district heating supplier. "The dialogue with local business partners and customers is paramount when agendas that extend far beyond our own corporate reality are at stake," says Brian Seeberg, Division Director, Verdo Energi, forsyning og elsalg.

How many apprentices are in Verdo energy systems a/s?

This target was achieved for the third year in a row. In Energy, apprentices accounted for 14% in both Verdo Energy Systems A/S and Verdo Energiteknik A/S. Verdo Energy Systems A/S and Verdo Energiteknik A/S had 12% apprentices, which is equivalent to 7 out of 58 hourly paid workers.

What is Verdo Energi og Forsyning doing?

Every day, Verdo Energi og forsyning is working to maintain a clean water supply to our customers in Randers. Among other things, we are involved in a partnership to develop new water filtration and purification methods.

o 2020 was a warm year, leading to a reduced demand for heating and falling revenue.

What is Verdo Energy's decentralized waste to energy concept?

Verdo Energy's decentralized Waste to Energy concept is focused on handling the waste where it is generated and converting the energy from waste into thermal or electrical energy used for private industries or local municipalities with a need of energy. We have four standard sizes for the waste to energy boiler plant, 4MWt, 6.7MWt, 10MWt and 15MWt.

Det var lidt af et ærsyn, da Aabybro Fjernvarme skulle have leveret deres nye energianlæg fra Verdo. De over 50 ton tunge hovedkomponenter til anlægget blev nemlig fragtet på to cirka 20 meter lange og 6,6 meter høje transporter hele vejen fra Verdo Energy Systems i Herning henover Limfjordsbroen til slutdestinationen hos Aabybro Fjernvarme.

Energianlæg. Verdo Energy Systems har leveret nyt 10 MW energianlæg til Aabybro Fjernvarme. Anlægget består af en 10 MW biomassekedel, med en samlet anlægseffekt på 14,4 MW som har været afgørende for at sikre varmforsyningen til de mange nye fjernvarmekunder i ...
