

Who is VoltStorage?

The success story of VoltStorage begins in 2016 as a Munich-based start-up. In our technology and product development, we rely on the non-critical raw materials iron and salt. With them, we are developing a battery specifically for Long Duration Energy Storage (LDES) applications as an important component for a climate-friendly energy future.

What is VoltStorage doing with a EUR30 million loan?

VoltStorage will use it to commercialise its existing vanadium redox flow battery (VRFB) technology and scale up its new iron-salt battery technology, or ISB. VoltStorage has been granted a venture debt loan of EUR30 million by the European Investment Bank (EIB), guaranteed by the European Commission.

Is VoltStorage working on flow battery technology?

VoltStorage researchers working on flow battery technology. Image: VoltStorage-EIB. Germany-based flow battery company VoltStorage has been granted a venture debt loan of EUR30 million (US\$33 million) by the European Investment Bank (EIB), guaranteed by the European Commission.

Why should we invest in VoltStorage?

Thus, it makes a significant contribution to a comprehensive decarbonisation of our energy landscape as well as to more energy security and energy autarky. The success story of VoltStorage begins in 2016 as a Munich-based start-up. In our technology and product development, we rely on the non-critical raw materials iron and salt.

Why did EIB give VoltStorage a loan?

The EIB has granted the loan to VoltStorage for the Munich-based company to invest in R&D as well as set up a production factory. VoltStorage will use it to commercialise its existing vanadium redox flow battery (VRFB) technology and scale up its new iron-salt battery technology, or ISB.

Bosnia And Herzegovina Renewable in % Electricity Production Under its draft NECP (2023), Bosnia and Herzegovina aims to reach a share of 43.6% of renewables in final energy consumption by 2030 (up from 36.6% in 2021), including 70% for electricity, 61% for heating and cooling, and 8.4% for transport (46%, 53%, and 0.2%, respectively, in 2021).

Sarajevo, the capital and largest city in Bosnia and Herzegovina. Sarajevo is also a metropolis. [1] Banja Luka Tuzla Zenica Mostar. Apart from entities, cantons and municipalities, Bosnia and Herzegovina also has officially designated cities. Official cities have their own mayor and city council, which is a big difference to the municipalities of Bosnia and Herzegovina, which have a ...

Bosnia and Herzegovina is located in Southeastern Europe. Situated in the western Balkans, it has a 932 km

(579 mi) border with Croatia to the north and southwest, a 357 km (222 mi) border with Serbia to the east, and a 249 km (155 mi) border with Montenegro to the southeast. [1] It borders the Adriatic Sea along its 20 km (12 mi) coastline. The most striking features of the local terrain ...
