

Is Western Sahara an interdisciplinary field?

"Western Sahara,Resources,and International Accountability." *Global Change,Peace and Security* 27 (3): 285-299. The production of research on natural resource exploitation in Western Sahara is accelerating. Yet this field remains interdisciplinary,and the work is carried out by researchers from academic,no...

Is Western Sahara a self-governing territory?

However,as noted above,the general trend is to view Western Sahara as a non-self-governing territoryand apply Chapter XI of the UN Charter (Saul 2015),which establishes that only the state - and not the individual - is responsible.

Is natural resource exploitation a problem in Western Sahara?

As the issue of natural resource exploitation in Western Sahara has been conceptualised in very different ways and from the perspectives of a variety of disciplines, the authors have opted for a semi-systematic review of the work done encompassing academic, non-academic, and activist backgrounds.

Does Morocco export phosphorus from occupied Western Sahara?

P for Plunder: Morocco's Exports of Phosphates from Occupied Western Sahara. Brussels: WSRW. Western Sahara Resource Watch. 2019. P for Plunder: Morocco's Exports of Phosphates from Occupied Western Sahara. Brussels: WSRW Western Sahara Resource Watch. 2020. P for Plunder: Morocco's Exports of Phosphates from Occupied Western Sahara.

Is Western Sahara occupied by Morocco?

Kingsbury (2015) establishes that Western Sahara is illegally and militarily occupied by Morocco. Moreover,he notes (and,given recent events,has been proved right) that as a growing source of discontent and conflict,the continued exploitation of its resources by the Moroccan administration risks a return to armed conflict by the SADR.

How interdisciplinary is research on natural resource exploitation in Western Sahara?

The production of research on natural resource exploitation in Western Sahara is accelerating. Yet this field remains interdisciplinary,and the work is carried out by researchers from academic,non-academic,and activist backgrounds,with sometimes very different aims and envisaged audiences.

Wastewater reclaim, treatment and reuse, has a great potential to alleviate water stress in the North Western Sahara Aquifer System (NWSAS), while supporting ...

The Kingdom of Morocco claims the territory of Western Sahara and administers the estimated 85 percent of that territory that it controls. The Popular Front for the Liberation of Saguia el Hamra and Rio de Oro (POLISARIO), an organization that seeks the territory's independence, disputes Morocco's claim to sovereignty over the territory.

Therefore, they typically are only used in utility-grade installations. And while PSH currently commands a 95% share of energy storage, utility companies are increasingly investing in battery energy storage systems (BESS). These battery energy storage systems usually incorporate large-scale lithium-ion battery installations to store energy for ...
